KOLPIN STRONGHOLD GUN BOOTS

ONE MOUNT
MULTIPLE
SOLUTIONS

The KOLPIN STRONGHOLD system is the result of an evolution over our 75-year history. The leather gun scabbard of the 1940s evolved into our famous hard-sided Gun Boot in the 1970s, and now has evolved into our KOLPIN STRONGHOLD system.

The newest and most versatile way to securely transport your rifles and shotguns...and we expanded the system to carry Ice Fishing gear too.

OIL & FILTERS

PROTECT AND LUBE

Kolpin Oil contains Powersports specific additives to combat the high RPMs & oil temps typically found in today's powersport engines, which cannot be found in automotive oil. These additives are designed to protect powersports engines against the negative effects of intermittent use and frequent start-ups, including extra corrosion inhibitors to prevent oxidation and rust on critical engine components.

Powersports specific viscosity modifiers help the oil stay in grade as the formula resists shearing caused from high heat and heavy loads.
