Hardware package part No. CYC0249
**Some components of this kit may be already assembled. All directions referring to right and left are when the rider is sitting on the machine. Please Note: The roller hawse, cable clamp, cable stop and hardware are included with the winch.**

**Model Number 25-2131**

**WINCH MOUNT INSTALLATION INSTRUCTIONS**

1. Remove skid plate from bottom of ATV and one of the side panels to ease installation.

2. Slide the winch mount plate into the inside of the front bumper. Locate the two countersink holes on the bottom side of the winch mount plate and align the two holes with the two existing holes on the bottom side of the front bumper frame assembly. Secure with two 5/16” x 3/4” flat head bolts and nylock nuts through the lower two holes. *Do not tighten attaching hardware at this time.*

3. **GO TO INSTRUCTIONS FOR YOUR WINCH.**
CYCLE COUNTRY 1500 WINCH MOUNTING INSTRUCTIONS

• Install the winch mount plate to the front bumper frame of the ATV using two 3/8” x 1” carriage bolts and nylock nuts. Do not tighten attaching hardware at this time.

• Using the 5/16” x 1” bolts, mount the winch to the winch mount plate. Be sure that when the winch is mounted to the ATV, the winch motor is on the LEFT side of the machine.

• Remove one of the long rollers and the two side rollers and feed the winch cable through the roller hawse. Reinstall the rollers and be sure rollers move freely.

• Attach the roller hawse to the winch mount plate using the 3/8” x 1” bolts and nylock nuts provided with the winch. Tighten all hardware.

See Winch Wiring Instructions supplied with the Winch for proper installation.

Tighten attaching hardware at this time. Be sure to reinstall the skid plate and side panels.
CYCLE COUNTRY 2500 WINCH
MOUNTING INSTRUCTIONS

- Install the winch to the winch mount plate and the front bumper frame of the ATV using two of the bolts supplied with the Cycle Country winch in the locations indicated below. Be sure that when the winch is mounted to the ATV, the winch motor is on the LEFT side of the machine. Do not tighten attaching hardware at this time.

- Remove one of the long rollers and the two side rollers of the roller hawse and feed the winch cable through the roller hawse. Reinstall the rollers and be sure the rollers move freely.

- Mount the roller hawse to the winch mount plate and the winch using the other two bolts supplied with the winch. Shown above for orientation.

**Tighten attaching hardware at this time. Be sure to reinstall the skid plate and side panels.**
WARN 2500 WINCH
MOUNTING INSTRUCTIONS

- Install the winch to the winch mount plate and the front bumper frame of the ATV using two of the bolts supplied with the Warn winch in the locations indicated below. Be sure that when the winch is mounted to the ATV, the winch motor is on the LEFT side of the machine. Do not tighten attaching hardware at this time.

- Remove one of the long rollers and the two side rollers of the roller hawse and feed the winch cable through the roller hawse. Reinstall the rollers and be sure the rollers move freely.

- Mount the roller hawse to the winch mount plate and the winch using the other two bolts supplied with the winch. Shown above for orientation.

Tighten attaching hardware at this time. Be sure to reinstall the skid plate and side panels.
CAUTION
BE AWARE OF THE CABLE STOP CONTACTING THE ROLLER HAWSE WHEN THE CABLE IS WOUND IN.
FAILURE TO RELEASE THE SWITCH MAY CAUSE DAMAGE TO WINCH PARTS OR TO THE ATV.

When using the Winch to raise and lower a Cycle Country Plow, a Cable Stop must be installed.

Hook the Winch Cable to the CYC0345 (U608) (item #4 on your 15-0001 push tube kit) through the slotted hole. Carefully raise the blade until the top of the push tube are no closer than 1” anywhere on the ATV. Place the Cable Stop onto the Winch Cable up against the Winch Hawse. Secure the Cable Stop to the Winch Cable using the Cable Clamp Assembly as shown in the pictures below.
One Year Limited Warranty

For the period of one (1) year from the purchase date, Cycle Country (a Kolpin Powersports Brand) will replace for the original purchaser, free of charge, any part or parts found upon examination by Cycle Country to be defective in material, workmanship, or both.

All transportation costs incurred submitting product to Cycle Country for warranty consideration must be borne by the purchaser. If Cycle Country determines that the product must be returned to the factory for credit, please call 1-800-841-2222 for a Return Merchandise Authorization (RMA) number and shipping instructions.

This warranty does not apply to parts that have been damaged by accident, alteration, abuse, improper maintenance, normal wear, or other causes beyond the manufacturer’s control. In order to protect you and your ATV, certain parts of the plow system and/or hardware are designed to fail when the equipment is over-stressed.

Peripheral products such as engines, electric motors, and actuators may carry an original manufacturer’s warranty. Please call Cycle Country for more information.
