Caution!

- Make sure power auger is securely fastened to brackets using supplied bungee cords before moving ATV.
Installation

1. Install the auger holder in one of the following configurations depending on the desired placement of the power auger:

   - To have the power auger sideways on top of the ATV rack, install as shown below:

   ![Auger holder mounted sideways on top of an ATV rack]

   - To have the power auger sideways in front or behind of the ATV rack, install as shown below:
