Hitch Mounting:

1. Place the hitch on the OEM Ball Mount of your ATV.
2. Place the Star Washer between the Kolpin Hitch and the OEM Ball Mount.
3. Insert the ¾" Hex Head Bolt through the hitches.
4. Next, slide on the ¾" Lock Washer Provided, and the ¾" Nut. Tighten Securely! See order above for correct attachment!
5. The larger diameter hole is for a standard shank hitch ball. The smaller diameter hole is for a clevis attachment.
