WINCH MOUNT KIT
FOR RZR 900 / RZR 1000 / GENERAL

P/N 25-3360

ASSEMBLY / OWNERS MANUAL

Application

WINCH KIT NO. 25-3360

Before you begin, please read these instructions and check to be sure all parts and tools are accounted for. The following instructions contain details required to install and service the contents of this kit.
OPERATING INSTRUCTIONS

Congratulations! You’ve just purchased the most durable accessory component in the industry. Our accessories work great all year round! With proper care and maintenance, your Kolpin accessory will last for years to come! Please read and understand all assembly instructions, notices and warnings before assembling and using your Kolpin accessory.

Follow these guidelines to ensure a successful and satisfactory installation:

Read, understand this manual before beginning installation
Periodically check for wear and tightness of all fasteners.
Replace or re-torque fasteners as necessary.

SAFETY & GENERAL PRODUCT INFORMATION

Kolpin accessories are designed with your safety in mind.

In order to protect you and your vehicle, certain parts of the accessory and/or hardware may be designed to collapse or break when the equipment is over-stressed.

Kolpin winch mount kits are designed to be compatible with Kolpin and Cycle Country winches along with many others, but may not be compatible with some winches. Kolpin winch mount kits have design features that benefit snow plow applications.

! DANGER ! ! WARNING ! ! CAUTION !

To avoid personal injury or damage to your vehicle:

Read and understand all notices for:

Caution
Warning
Danger

Follow instructions for your vehicle, winch, winch mount and other items used in combination with this product.

Do not winch unsecured loads at any time.

Disconnect battery during winch installation or service to prevent electrical hazards.

Do not lift loads overhead.

Do not exceed the load capacity of the winch.

Always wear gloves when handling wire winch cable.

Do not use your winch or winch mount for towing.

Do not shock load the winch, cable or winch mount.

Keep fingers, hands and loose clothing away from roller fairlead and winch cable drum when in use.

BEFORE YOU BEGIN:

- Your Kolpin accessory is exclusively designed for your vehicle
- Please read and understand all instructions
- Verify all parts and tools are accounted for
- To ensure a satisfactory installation, follow all steps correctly and in the sequence described
- Keep these instructions for future reference or for informational requests
- To facilitate installation, make sure that your vehicle is clean and free of debris
- All directions referring to right and left are when the rider is sitting on the machine

TOOLS REQUIRED:

- 13mm socket and 13mm wrench
- 15mm socket and 15mm wrench
- 17mm socket and 17mm wrench
- 3/8” socket
- T40 Torx
- Pliers
- Do not use impact tools to install hardware

APPROXIMATE ASSEMBLY TIME: 30 minutes

Note: Additional time may be required to accommodate other installed accessories.

Note: If any hardware is missing, do not return to the store. Call us to help, Toll Free 1-877-956-5746.

Installation Prep:

1. Shift vehicle transmission into PARK. Turn ignition key to OFF position and remove from ignition switch.
2. Remove driver’s seat and under seat storage compartment, then disconnect red positive (+) and black negative (-) cable from battery.
3. Detach the plastic plate by removing two screws as shown. (See illustration 1-1). Note, OEM hardware and plastic plate won’t be used with winch.
Installation Prep (Continued):

4. Remove the front fascia by removing ten screws as shown. (See Illustration 1-2).

Mount Installation:

5. Mount the winch plate (item #2) onto the vehicle with four carriage bolts (item #3) and locknuts (item #5) as shown. (See illustration 2-1). Tighten hardware to specification.

Winch Installation:

6. Slide the winch from right to left direction on the mount plate as shown. (See illustration 3-1). Note, cooling hoses may need to be moved out of way to allow access for winch to fit.
Winch Installation (Continued):

7. Mount the winch to the mount plate as shown. Use the M8 hardware supplied with the winch kit to secure to bracket. (See Illustration 3-2). Tighten M8 hardware to specification.

<tbody>
<tr>
<td>17 ft. lbs. (23 Nm)</td>
</tr>
</tbody>
</table>

---

Roller Fairlead Mount Installation:

8. Install the roller fairlead (included with winch kit) using the M8 hardware supplied with winch kit to the roller mounting bracket (item #1) as shown. Use the M8 hardware included in the winch kit for this step. (See illustration 4-1). Tighten M8 hardware to specification. **Note, vehicle models with accessory front bumper may not require usage of item #1.**

Winch Cable Wrap Installation on Spool Drum:

10. The winch cable or rope should be wrapped around the spool drum as shown. Spooling the cable as shown will prolong cable life and enhance winch performance. (See illustration 6-1).

11. Twist the knob on the winch and insert cable through front plate bracket and roller fairlead to move cable freely as shown. (See illustration 6-1).

12. Connect the hook to cable or rope by using hardware supplied with the winch kit as shown. (See illustration 6-2).

13. Reinstall front fascia to vehicle using OEM fasteners.

Winch Wiring and Connections:

14. Using the winch kit instructions, route and connect the electrical cables and components for the winch system.

15. Secure all harnesses using cable ties (provided with winch kit) to prevent contact with hot components, sharp edges or moving parts.

16. Reconnect red positive (+) cable and black negative (-) cable to battery, then reinstall under-seat storage compartment and drivers’ seats.

17. With the vehicle key in the ON position, check winch for proper operation.

18. Retighten all hardware after 30 minutes of riding.
One Year Limited Warranty

For the period of one (1) year from the purchase date, Kolpin will replace for the original purchaser, free of charge, any part or parts found upon examination by Kolpin to be defective in material, workmanship, or both.

All transportation costs incurred submitting product to Kolpin for warranty consideration must be borne by the purchaser. If Kolpin determines that the product must be returned to the factory for credit, please call 1-877-956-5746 for a Return Merchandise Authorization (RMA) number and shipping instructions.

This warranty does not apply to parts that have been damaged by accident, alteration, abuse, improper maintenance, normal wear, or other causes beyond the manufacturer's control. In order to protect you and your ATV, certain parts of the accessory system and/or hardware are designed to fail when the equipment is over-stressed. Parts that are lost due to loosening and improper maintenance are not covered under warranty. This warranty does not cover removal or reinstallation labor fees of the plow system and related components.

Peripheral products such as engines, electric motors, and actuators may carry an original manufacturer's warranty. Most hardware is general in nature and is easily obtained locally. Be sure to replace with minimum metric class 8.8 specification.
