Assembly Time: Approximately 15 minutes

Important: This product is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

Installation Instructions:

1. Shift vehicle transmission into PARK. Turn key to OFF position and remove from vehicle.

2. Carefully remove Windshield Panel from box and place on a clean flat surface that won’t scratch the Windshield. We recommend leaving the protective film on both sides of the Windshield Panel during assembly and only partially peeling it back in locations where mounting components are attached.

4. Attach the two Clamps [Item 2] to the back side of the Windshield Panel. Each Clamp uses two Button Head Screws [Item 3], two Lock Washers [Item 4], and two Domed Shoulder Washers [Item 5]. The Kolpin logo on the Clamp should face the outside of the vehicle when closed. Do not tighten hardware yet. Leave Clamps in open position for assembly onto the vehicle. See Illustration 1-2.

5. Carefully position the Windshield assembly onto vehicle Roll Cage. Assure the Windshield is aligned evenly and the Bulb Seal is compressed onto the vehicle bodywork. See Illustration 1-3.

6. Secure each Clamp to the Roll Cage using one Button Head Screw [Item 3], and one Lock Washer [Item 4].

7. Tighten all Button Head Screws [Item 3] to torque specification below.

   SPECIFIED FASTENER TORQUE:
   7 ft. lbs. (84 in-lb) (9.5 Nm)

8. Remove the protective film from BOTH sides of the Windshield Panel. Protective film may be clear on one or both sides which can be difficult to see.

9. Re-inspect hardware before and after riding or trailering.
Windshield Cleaning Information:

- Remove all dirt, mud, dust and debris from Windshield with water before cleaning.
- Use a mild soap or dishwashing detergent along with a soft sponge or soft cotton cloth to clean Windshield surface. Do not apply in direct sunlight. Rinse with water immediately and dry with a soft cotton cloth or chamois.
- Always test cleaning agents in a small inconspicuous area prior to cleaning entire panel.
- Never use Windshield cleaning fluids (409, Windex, etc.), gasoline, high alkaline cleaners, or solvents.
- Never use abrasives, brushes, razor blades, scrapers, squeegees, gloves or dirty cloths.

For additional assistance, please contact Kolpin customer service department at (877) 956-5746 or (763) 478-5800 or email customerservice@kolpin.com.

One Year Limited Warranty

For the period of one (1) year from the purchase date, Kolpin will replace for the original purchaser, free of charge, any part or parts found upon examination by Kolpin to be defective in material, workmanship, or both.

All transportation costs incurred submitting product to Kolpin for warranty consideration must be borne by the purchaser. If Kolpin determines that the product must be returned to the factory for credit, please call 1-877-956-5746 for a Return Merchandise Authorization (RMA) number and shipping instructions.

This warranty does not apply to parts that have been damaged by accident, alteration, abuse, improper maintenance, normal wear, or other causes beyond the manufacturer’s control. In order to protect you and your ATV, certain parts of the accessory system and/or hardware are designed to fail when the equipment is over-stressed. Parts that are lost due to loosening and improper maintenance are not covered under warranty. This warranty does not cover removal or reinstallation labor fees of the plow system and related components.

Peripheral products such as engines, electric motors, and actuators may carry an original manufacturer’s warranty. Most hardware is general in nature and is easily obtained locally. Be sure to replace with minimum metric class 8.8 specification.
