Tire Plug Installation (See images on next page):

1. Find and remove item that caused the puncture in tire.
2. Drive reamer tool (item #4) into puncture and work up and down until reamer tool slides easily in and out of the puncture. The goal is to remove jagged edges and allow proper sealing.
3. Thread tire plug seal (item #3) half way through plug installation tool (item #5).
4. Push the seal/rubber plug into the hole until ½” of the tire seal/rubber plug remains outside the tire, turn ½ turn and remove.
5. Cut excess tire seal as close to the tire as possible
6. If puncture is too big, it may have to be repaired by a professional tire shop.

**NOTE: This kit is designed to fix tires temporarily and allow safe completion of your journey. Please have tires inspected by a tire dealer as soon as possible when you return.**

CO₂ Canister Warning:
- Don’t inhale.
- Don’t remove canister before empty.
- Don’t place in the sun directly (Do NOT exceed 113° F/45°C).
- Store in cool dry area.
- When the canister starts to discharge, the canister instantly drops to -64°F/53°C, so put CO₂ canister into the foam covering or wrap canister by rag before use to avoid frostbite.
- Once empty, please recycle empty cartridges.

CO₂ Instructions:
- CO₂ is a natural & pure inert gas.
- Each canister contains 16g of liquid CO₂.

How To Use:
1. Put CO₂ canister into the foam covering or wrap canister with cloth rag.
2. Check the style of tire valve and determine which adaptor is needed.
3. Remove tire valve cap and attach adapter hose (item #2) to tire valve.
4. Attach CO₂ cartridge (item #1) to adapter hose and allow compressed gas to fill tire. **CAUTION: CO₂ will become very cold and could cause burns. Use included canister foam wrap.**
5. Replace the tire valve cap and check the air pressure right away. Used canister is made of recyclable material.

One Year Limited Warranty
For the period of one (1) year from the purchase date, Kolpin will replace for the original purchaser, free of charge, any part or parts found upon examination by Kolpin to be defective in material, workmanship, or both.

All transportation costs incurred submitting product to Kolpin for warranty consideration must be borne by the purchaser. If Kolpin determines that the product must be returned to the factory for credit, please call 1-877-956-5746 for a Return Merchandise Authorization (RMA) number and shipping instructions.

This warranty does not apply to parts that have been damaged by accident, alteration, abuse, improper maintenance, normal wear, or other causes beyond the manufacturer’s control. In order to protect you and your ATV, certain parts of the accessory system and/or hardware are designed to fail when the equipment is over-stressed. Parts that are lost due to loosening and improper maintenance are not covered under warranty. This warranty does not cover removal or reinstallation labor fees of the plow system and related components.

Peripheral products such as engines, electric motors, and actuators may carry an original manufacturer’s warranty. Most hardware is general in nature and is easily obtained locally. Be sure to replace with minimum metric class 8.8 specification.
